

Module Strategy Table

Module / Page	Applied Technique	Reason for This Technique?
PIM (Personnel Management)	ECP & BVA & Use Case Testing 	ECP/BVA is best for validating data entry fields like Name and ID. Use Case Testing is applied to verify the end-to-end "Add Employee" workflow, including optional steps and exception flows.
Leave (Leave System)	Decision Table 	Covers complex business logic such as leave balance, approval status, and date validity.
Login / Dashboard	Automation (Selenium)	Ideal for automating the system's login security and the accuracy of the main dashboard (Smoke Test).
System General (Extra)	Usability & Performance & Compatibility	The part referred to as "extra points" by the instructor.

1. Employee ID (Identification Number)

Field: Employee ID

Rule: Accepts only digits, must be between 1-10 characters long.

Equivalence Class Partitioning (ECP)

Class ID	Input Type	Description	Expected Result	Type
EC1	1 - 10 Digits	Valid numeric range (e.g., "5421")	Accepted	Positive
EC2	Empty	No input provided	Error Message	Negative
EC3	> 10 Digits	String longer than 10 characters	Error/Truncated	Negative
EC4	Alphabetic	Non-numeric characters (e.g., "ABC")	Error Message	Negative
EC5	Special Chars	Symbols (e.g., "1-2@#")	Error Message	Negative

Boundary Value Analysis (BVA)

Test Case	ID	Value (Length)	Description	Expected Result	Type
BVA01	01	0	Below Minimum	Invalid	Error Negative
BVA02	02	1	Minimum Boundary	(Valid) Acceptable	Positive
BVA03	03	2	Above Minimum	(Valid) Acceptable	Positive
BVA04	04	9	Below Maximum	(Valid) Acceptable	Positive
BVA05	05	10	Maximum Boundary	(Valid) Acceptable	Positive
BVA06	06	11	Above Maximum	(Invalid) Error	Negative

2. Employee Full Name

Field: Employee Full Name

Rule: Must be minimum 2 and maximum 50 characters long.

Equivalence Class Partitioning (ECP)

Class ID	Input Category	Description / Example	Expected Result	Test Type
EC-NAME-01	Valid Length & Alpha	2 - 50 Alphabetic chars (e.g., "John Doe")	Accepted	Positive
EC-NAME-02	Empty / Null	No characters entered	Error Message	Negative
EC-NAME-03	Too Short	Only 1 character (e.g., "A")	Error Message	Negative
EC-NAME-04	Too Long	More than 50 characters	Error/Truncated	Negative
EC-NAME-05	Numeric Only	Contains numbers (e.g., "John123")	Error Message	Negative
EC-NAME-06	Special Chars	Contains symbols (e.g., "John_@Doe")	Error Message	Negative
EC-NAME-07	Valid Non-Latin	Unicode chars (e.g., "Özgür Şahin")	Accepted	Positive

Boundary Value Analysis (BVA)

Test Case ID	Value (Length)	Description	Expected Result
BVA1	1	Below Minimum (Invalid)	Error Message
BVA2	2	Minimum Boundary (Valid)	Accepted
BVA3	3	Just Above Minimum (Valid)	Accepted
BVA4	49	Just Below Maximum (Valid)	Accepted
BVA5	50	Maximum Boundary (Valid)	Accepted
BVA6	51	Above Maximum (Invalid)	Error Message
