C2: Leave type selected	-	Y	Y	Y	Y	N
C3: Leave dates valid	-	Y	Y	Y	N	—
C4: Leave balance sufficient	-	Y	Y	N	—	—
C5: Manager approves	-	Y	N	—	—	—
Actions						
A1: Leave is approved		✓				
A2: Leave is rejected			✓	✓		

A3: This request has already been processed	✓					
A4: Error Message					✓	✓

This decision table shows the business logic of leave request and approval in OrangeHRM. Conditions are derived from system constraints such as leave balance, date validation, leave type selection, request status, and managerial approval. Although 32 combinations are possible, we didn't include all of them instead, we grouped similar cases. This way, we avoided unnecessary repetition and kept only meaningful scenarios.
